

LIFETIME LIMITED WARRANTY

SoftWash Systems offers a Lifetime Limited Warranty to the original purchaser of any of our skid mounted / SoftWash Systems branded equipment. As long as the original purchaser is the current owner of the skid mounted system SoftWash Systems will stand behind our Aluminum Structure (Skids, Tank Straps, Control Panels, Reel Stands, Brackets) and our poly holding tanks, manufactured by SoftWash Systems for the lifetime of the equipment when installed into a truck or a van. Trailers are excluded from this warranty.

SoftWash Systems also provides to the original purchaser a one-year (12 months) full bumper to bumper guarantee on all components attached to our branded skids - for workmanship defects, as part of the original build performed by SoftWash Systems. Workmanship defects are defined as defects in the system that inhibit normal operating performance.

Items like hose reels, booster pumps, banjo fittings/valves and pressure washers are manufactured by third party companies and have their own factory warranty. These items are not covered by SoftWash Systems warranty. We strive to help you with factory warranties – however, only items manufactured by SoftWash Systems should be returned to our location. All factory warranties will need to be sent to the proper address, with shipping at the customer's expense. Please see (page 25 & owner's manual bag) "Other Manufacturers of Components"

Wear items like chemical pumps, hoses and pressure gauges are not covered by this warranty. The term wear is described as the wear that should be expected in the course of normal operating usage of SoftWash equipment. Additionally, equipment must be cared for in a manner consistent with the SoftWash Systems skid owner's manual and must not suffer from abuse or neglect as determined by SoftWash Systems. System rust and / or corrosion are indications that your system has not been properly cared for (*see page 25, Proper Care*) and will result in your warranty claim being denied.

In the event of failure SoftWash Systems will repair the deficiency or replace at its option. Parts will be replaced at no cost to the original customer. Shipping and installation will be at customers expense.
